

Lockrod for Truck Bodies and Trailers with Platforms

Benefits

- **More Leverage:** Handle at 90° during operation.
- **Less Interference:** Pin held in open position during swinging of the door.
- **Less Play:** Positive connection between handle and lockrod.
- **Flexibility:** Compatible with most Powerbrace lockrod models.

More Options, Better Solutions

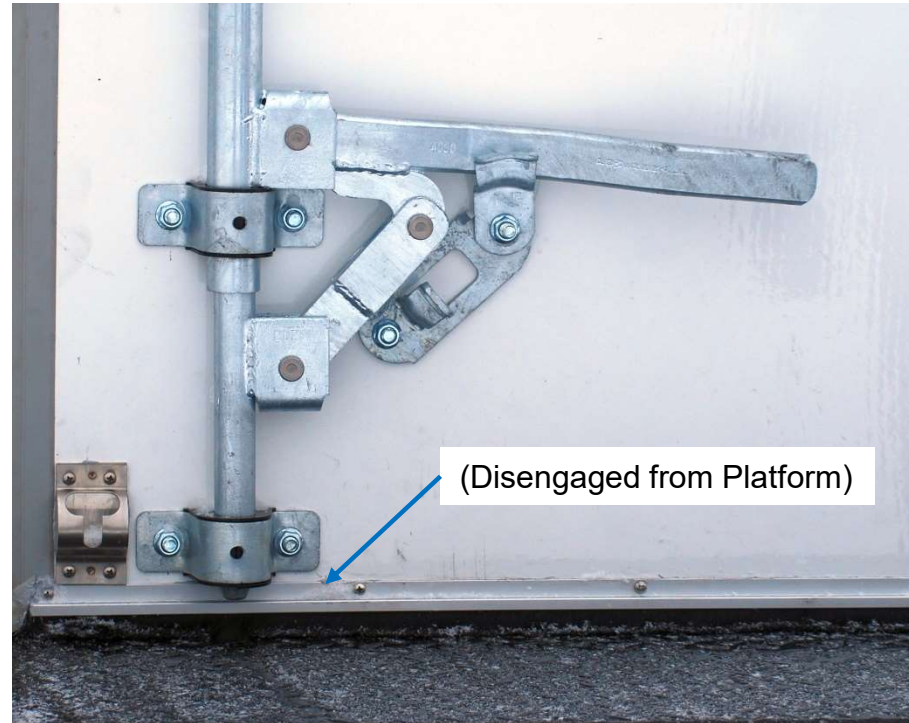

Handle Directly Connected to Lockrod:
Positive connection reduces play.

Closed and Locked Position

- Pin engaged in platform.
- Cam engaged at top.

Handle at 90° During Operation:
Maximum leverage to rotate lockrod.

Lever Held in Open Position:

Prevents pin from dragging on or bumping into platform during door movement.
